AB A **cement** admixt. compn. is provided which increases the amt. of the alternative **cement** from the compd. without lowering the quality of a secondary **cement** product. The compn. was characterized by contg. the following components: 70-90% of at least one **pozzolan** material selected from fly ash, slag powder and zeolite and 10-30% of an anhyd. gypsum. The secondary **cement** product was prepd. by replacing and adding the **cement** admixt. in an amt. of 15-50% to the expected **cement** use.

Case 504

ST **cement** admixt waste **pozzolan** anhydrite

IT **Cement** (construction material)

(**cement** admixts. contg. waste **pozzolan** and anhyd.
